Hiring Team

Accent Group Limited

Dear Hiring Team,

I am applying for the Service Desk Analyst role at Accent Group. Supporting 850+ stores across multiple retail brands is a large-scale, fast-moving IT environment - exactly the kind of setting my background has prepared me for, and where I am looking to take my first step into a formal service desk role.

At Ozb Group (RMA) in Cheltenham, I spent nearly two years in a technical support role within a retail returns environment. The day-to-day work included troubleshooting device faults, guiding customers through technical issues, maintaining accurate compliance records for every return, and training new staff on technical processes and escalation procedures. Retail IT support means real-time problem-solving at volume - I understand the pressure of a store waiting on a fix, and I have operated in exactly that context. The multi-brand retail environment at Accent Group (Platypus, Hype, Stylerunner and others) maps closely to the RMA context I have worked in.

I am currently completing a Bachelor of Cybersecurity at Melbourne Institute of Technology (expected July 2026), covering networking, operating systems, and security fundamentals. I do not yet hold formal ITSM certifications, but I plan to pursue CompTIA A+ and ITIL Foundation within my first six months in a service desk role, and I am motivated to close that gap quickly once I have access to a structured ticketing environment.

I would welcome the opportunity to discuss the role with your team. Thank you for your consideration.

Sincerely,

Pratik Dhami
