PROFESSIONAL SUMMARY

Customer-focused support professional with two years of hands-on technical support and order/request processing experience, seeking an entry-level helpdesk or telecommunications support role. Proven ability to troubleshoot technical issues, process customer orders and requests accurately, train staff, and deliver strong customer service in fast-paced, rotating-roster environments. Has completed all coursework and final exams for a Bachelor of Cybersecurity (degree conferral expected July 2026) and is now available for full-time work immediately. Holds full working rights in Australia on a Partner Visa – no employer sponsorship required.
