Hiring Manager

Asahi Beverages

Southbank, VIC 3006

Dear Hiring Manager,

I am writing to apply for the Service Desk Analyst role at Asahi Beverages. The opportunity to support a fast-moving, people-focused organisation while building a long-term career in IT is exactly what I am looking for as I complete my studies.

I bring two years of hands-on technical support experience from my role as a Technical Support Associate at Ozb Group (RMA), where I provided first and second line support via phone and in person. I diagnosed and resolved hardware, software, and connectivity issues for a wide range of users, logged all cases accurately, performed password resets and access troubleshooting, and escalated complex issues with clear documentation. Above all, I made sure every user left the interaction feeling genuinely supported — not just technically fixed.

I am completing a Bachelor of Cybersecurity at Melbourne Institute of Technology, graduating in July 2026. My studies have given me a strong grounding in Windows systems, networking fundamentals, security practices, and incident response — directly applicable to the day-to-day demands of this role. The career growth pathway you describe into cloud and cybersecurity is one I am actively pursuing, and I plan to obtain CompTIA A+ and ITIL Foundation certifications post-graduation.

I am available to commence from August 2026 upon completing my final trimester. I am genuinely excited by the prospect of contributing to a team that keeps Asahi's technology running smoothly and I would welcome the chance to grow with the business over the long term.

Thank you for your consideration. I look forward to the opportunity to discuss my application.

Kind regards,

Pratik Dhami
