Talent Acquisition Team

Victorian Auditor-General's Office (VAGO)

Melbourne, VIC

Dear Hiring Manager,

I am writing to apply for the IT Customer Support Officer role at VAGO. The opportunity to support a team dedicated to government accountability and transparency, while building my technical skills in a modern, security-conscious environment, is exactly what I am looking for as I complete my final trimester of a Bachelor of Cybersecurity at Melbourne Institute of Technology.

I bring two years of hands-on technical support experience from my role as a Technical Support Associate at Ozb Group (RMA), where I provided Level 1 support via phone and in person, managed service requests end-to-end, maintained accurate and auditable case records, and escalated complex incidents with full documentation. Working in a compliance-focused environment where every action needed to be recorded and traceable gave me a strong appreciation for the kind of rigour that an organisation like VAGO requires.

My cybersecurity studies have given me a solid grounding in operational security practices, vulnerability awareness, Windows environments, and incident response — areas directly relevant to the security-related responsibilities of this role. I understand that supporting an organisation like VAGO is not just about fixing technical problems, but about maintaining the integrity and continuity of systems that people depend on to do meaningful public sector work.

I am a reliable, detail-oriented communicator who takes pride in accurate documentation and genuine service quality. I am available to commence in July 2026 upon completing my degree, and I am happy to discuss the timing of my availability further.

Thank you for the opportunity to apply. I would welcome the chance to contribute to VAGO's mission and grow as part of your team.

Kind regards,

Pratik Dhami
