Hiring Manager

Fyfe

Melbourne, VIC

Dear Hiring Manager,

I am writing to apply for the Graduate IT Service Desk Analyst role at Fyfe. This position is an ideal match for where I am in my career: a recent IT graduate with real-world support experience, ready to commit fully to a structured environment and grow within a professional services organisation.

I bring two years of hands-on technical support experience from my role as a Technical Support Associate at Ozb Group (RMA), where I acted as the first point of contact for hardware, software, and connectivity issues. I logged and managed incidents end-to-end in line with service timelines, performed password resets and account setups, escalated complex issues with full documentation, and trained new staff on systems and processes. I understand what it means to own a ticket from first contact to closure and to keep the user informed throughout.

I am completing a Bachelor of Cybersecurity at Melbourne Institute of Technology, graduating in July 2026, and am available to commence from August 2026. I am on a Partner Visa and hold full working rights in Australia — no employer sponsorship is required or requested. I want to be clear about this upfront so there is no ambiguity in the process.

Fyfe's commitment to graduate development — paid training, study support, mentoring, and professional memberships — is genuinely what I am looking for as a starting point in my IT career. I am eager to contribute from day one and to grow within the organisation over the long term.

Thank you for considering my application. I look forward to the opportunity to discuss it further.

Kind regards,

Pratik Dhami
