Hiring Manager  
**Cabrini Health**  
Mt Waverley, VIC

Dear Hiring Manager,

I am writing to apply for the Service Desk Analyst role at Cabrini Health. The opportunity to deliver first-line IT support within a values-led healthcare organisation — one guided by compassion, integrity and respect — genuinely appeals to me. Technology in a healthcare setting carries real weight, and I want to be part of a team where getting it right matters.

I bring two years of hands-on technical support experience from my role as a Technical Support Associate at Ozb Group (RMA), where I provided first-line support via phone and in person. I logged and managed incidents accurately in the ticketing system, performed password resets and user account administration, resolved hardware and software issues across Windows-based environments, and escalated complex cases with full documentation. I consistently made sure users felt heard and supported throughout every interaction — something I understand is especially important in a healthcare context where staff depend on technology to do their jobs under pressure.

I am completing a Bachelor of Cybersecurity at Melbourne Institute of Technology, which has given me a strong grounding in Windows systems, networking, Active Directory concepts, security fundamentals, and incident response. I am committed to pursuing ITIL Foundation and CompTIA A+ certifications and welcome the professional development opportunities Cabrini offers.

I am on a Partner Visa and hold full working rights in Australia — no employer sponsorship is required or requested. I am available to commence immediately.

I am comfortable with shift work and a rotating roster. I understand that healthcare IT operates around the clock and I am prepared to meet that commitment fully.

Thank you for considering my application. I would welcome the opportunity to contribute to Cabrini Health's IT team.

Kind regards,

**Pratik Dhami**
